UID Nr. ATU 40197407 | ZVR Nr. 611052592 | www.wanderhotels.com

WE ARE WANDERHOTELS

Since 1995

DECADES OF EXPERIENCE, UNIQUE MOUNTAIN LANDSCAPES, EMOTIONAL NATURE EXPERIENCES AND CREATIVE DISCOVERIES

As pioneers of today's outdoor boom, the Wanderhotels have been offering perfect holiday experience year-round since the foundation in 1995. The focus lies on hiking, nature and outdoor experience. Each of the 58 member hotels is located in Austria, South Tyrol or the Black Forest, all hotels are family-run by hosts sharing passion and enthusiasm for "their" mountains. During the last 30 years continuous development towards highly professional outdoor holidays has been taken place. This persistent progress combined with comfort and top quality allow the Wanderhotels to be called Europe's number one expert in alpine outdoor experience.

Hiking is trendy in the 21st century and practiced by millions of people. Hiking in pristine natural environment clears the mind and revives the soul. Green leaves, delicate flowers, birdsongs and the bubbling of a mountain stream touch the heart and benefit body and soul. Being outside, enjoying beautiful views and experience nature with all senses, inspires the mind, improves concentration and strengthens willpower.

YOUR HOST AND CONSULTANT: PASSIONATE AND COMPETENT

The goal of each best alpine Wanderhotel is to offer their guests an outstanding and unforgettable holiday experience in the mountain landscape. Local families as hosts guarantee passion, enthusiasm and professional knowledge of the surrounding alpine region. Very often hikes are guided by the hotelier personally - a speciality of the Wanderhotels - or by a certified hiking guide.

"Just let your mind and sight wander freely", was the founder's recipe for the creation of the Wanderhotels. The Wanderhotels share the common goal of creating sustainable nature experience while achieving the highest quality standards combined with friendly hospitality.

Reconnecting with nature is the new luxury nowadays. The more our lives are lived in narrow and noisy cities, the more we move around in digital worlds, the greater the longing to escape that world full of pressure and stress becomes. Relief is found in the forest, on the mountains or simply in quiet places that connect us with nature. Wandering the alps is exercise for the body and freedom for the soul.

HIKING ALL YEAR ROUND

The Wanderhotels offer hiking as a year-round activity for all levels. Hikes range from easy, meditative walks to high alpine tours. Climbing, biking, skiing, snowshoeing or chilly winter walks - the focus lies in spending time in pure nature. Whether you are travelling alone, with family or a couple - the Wanderhotels satisfy every need year-round.

"WHO COMES ONCE, ALWAYS COMES BACK"

The binding in every hotel of the group is very high, which has to do with the close contact between travellers and hosts particularly during hikes together. The constant service in all member hotels, despite the individual facilities and location, guarantees high guest satisfaction. But not only this - guests also have close ties to the Wanderhotels globally. Guest reviews show that many guests trust in other places of the alpine-wide specialists after a visit to a member hotel.

Wanderhotels at a glance

Around 5,000 guest beds
and more than 1 million
overnight stays per year

58 family-run
